AMPD Methodology

Fast Track SAP S/4HANA Migration

Auritas | SAP Gold Partner
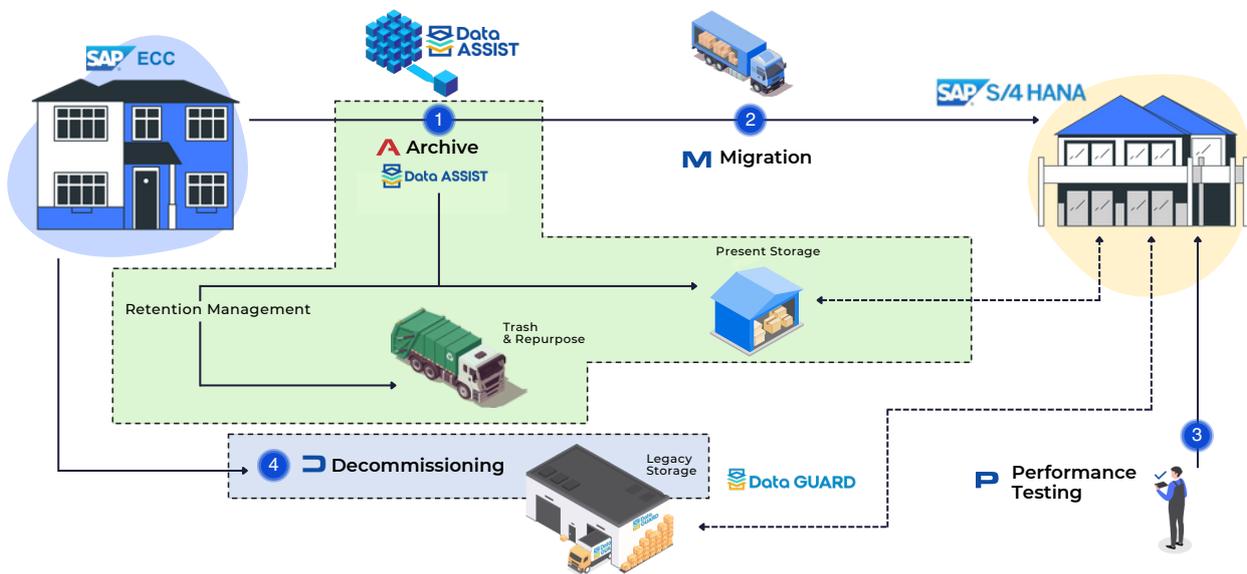

Auritas aligns with SAP to bring you best in class approach to system migration. Auritas AMPD Methodology ensures enterprises significantly reduce the risks and costs of migrating and operating on SAP S/4HANA. Designed to be flexible, the AMPD process can be changed to fit your organization's unique needs and goals. From cost savings to NetZero downtime, preparing for your migration is the key to success.

Get Value From Start to Finish

AMPD is the methodology used by top Fortune-500 companies when migrating to the cloud. From addressing data volume and compliance, to testing system performance and retiring legacy apps; Auritas experts ensure a successful S/4HANA migration.

SAP ECC — Data ASSIST — 1 Archive / Data ASSIST — 2 Migration — SAP S/4 HANA

Retention Management — Present Storage — Trash & Repurpose

4 Decommissioning — Legacy Storage — Data GUARD — 3 Performance Testing

---

Archive
Manage data volume efficiently, reduce storage costs, and ensure a lean and agile data environment. Data ASSIST by Auritas runs on BTP and provides ROI insights, schedules the activity and provides a dashboard for real-time monitoring.

Performance Test
As you move from one environment to the next, automating testing can be a key component to ensure efficiency performance and cost savings on the new IT landscape.

Migrate
Advanced migration tools deliver comprehensive insight into your data initiative with dashboards that track every aspect of your project, including timelines, data quality scores, workflows, outcomes, and more.

Decommission
Decrease TCO of legacy hardware while maintaining access to and preserving necessary data using a single source of truth. Data GUARD by Auritas runs on BTP and provides a secure environment for legacy data while enabling 3rd party analytic access.

About Auritas
