

Data GUARD by Auritas facilitates organizations to decommission legacy SAP and non-SAP systems while retaining accessibility to the data for regulatory, legal, and business purposes. Ensure reporting capability on data and documents retired and stored in Data GUARD. For decommissioned SAP systems, take advantage of 70+ T-code viewable interface screens.

Run advanced, tailored reports on decommissioned data through third-party analytic applications.

Ensure the security of decommissioned data through Active Directory, SAP, and manual controls.

Decommission SAP and non-SAP systems while ensuring audit compliance with secure and immutable data storage.

Aging systems often come with high maintenance and support costs. Decommissioning eliminates these expenses and technical debt, enabling organizations to start fresh with modern, scalable, and sustainable solutions. Data GUARD helps you simplify the management of decommissioned SAP and non-SAP systems and applications, allowing you to future-proof your landscape.

Unified system access

Manage data from multiple retired SAP and non-SAP systems in one platform.

Audit-ready compliance

Secure, immutable data storage simplifies audits and compliance.

Familiar SAP interface

70+ SAP transaction screens for a seamless user experience.

Flexible reporting

Create standard and custom reports within solution or third-party tools.

Divestiture readiness

Maintain secure data access during carve-outs and divestitures.

Secure data access

Control access through Active Directory, SAP, or manually.
